

Improving Mathematics at KS2 & 3 New EEF guidance workshop

Teachers and children are facing increased challenges as part of a more demanding mathematics curriculum across all Key Stages. This session aims to give teachers an overview of the eight evidence-based strands from the EEF's recently published guidance report. Topics include:

- Using manipulatives
- Strategies for problem solving
- Using calculators
- Strategies for independence

Aimed at

KS2 Maths Leads, KS3 Maths Leads, maths teachers, school leaders and maths advisors

Featuring

Peter Henderson, Education Endowment Foundation
Co-author of the EEF report 'Improving Maths at KS2&3'

Cost

£30 covering all refreshments, resources and copies of the EEF guidance report

25th June 2018
